# AURORA FINE BRONZE

Product Information

# SHIMMERING WARM

Goldenlike patina bronze effect with natural appearance

Aurora Fine Bronze is the perfect choice if you are looking for **warm golden bronze tone**. It adds natural luminescence in your application and adjust perfect to various skin tones.

Aurora Fine Bronze convinces the viewer by an **extreme fine and smooth metallic luster**. With its gol-den like patina bronze effect it provides to your powder or eye shadow a natural appearance and supports the 3D rendering in matte makeup.

Aurora Fine Bronze is based on Synthetic Mica (Fluorophlogopite), which exhibits and supports the pureness of color, brightness and reflection power. With a very low heavy metal content it is perfectly **suitable for all cosmetic applications**.
