

# ELECTRIFYING GLITTER SPRAY

Enveloped by Subtly Glimmering Mist

## Anticipation is the Greatest Joy

What are we most looking forward to right now? Summer is just around the corner and we long once more to go out, enjoy life, meet friends, and take pleasure in making ourselves shine.

Surrounded by a fine mist of fascinating glitter spray, a trendy outfit combined with the perfect make-up becomes a real eye-catcher. Whether applied as a glittering highlight on the hair or as a breathtaking shimmering body mist on the skin, these inspirational effects applied with a pearlescent spray emanate polished personal charisma.

## Hair and Body Spray – A Sparkling Boost or Breathtaking Finish

Give your hair and skin extra multi-faceted shine with sparkling silver, glamorous gold, glowing bronze, or brilliant interference effects.

Select the perfectly matching color shade from our extensive product portfolio. From the subtle, classic gleam of silver to interference, gold, and bronze tones and extravagant, colorful multicolor glitter effects, we have the right effect to make your wishes come true. Create intense and multi-faceted highlights in every imaginable look!

## Aurora – Synthetic Mica-Based Pigments

This product line is characterized by high transparency, a regular surface, strong and pure color tones, and a very smooth skin feel – created with our proprietary state-of-the-art manufacturing process for synthetic mica. All pigments in the range display high brilliance and outstanding chroma.

Our Chameleon pigments have the remarkable ability to transition through two or three colors depending on the viewing angle. This results in superb multi-color effects.

## BoroStar – Borosilicate-Based Pigments

Explore our range of stunning effect pigments based on calcium aluminum borosilicate with scintillating sparkle and fascinating multicolor highlights.

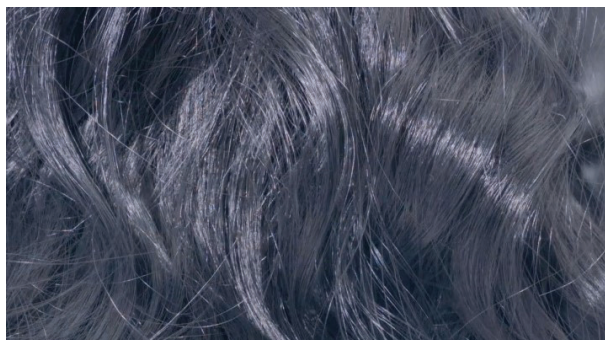

These pigments are highly transparent and produce a striking glitter effect with high reflectivity, superb chroma and a clean mass tone. Even low dosages of pigment have a significant impact on the final color effect, especially in transparent formulations.

Discover an example of a temporary glitter hairspray based on COSMI 19815A Red/Violet/ Blue Super Sparkle, a captivating multicolor pigment from our BoroStar Chameleon range.
