

# SEASONAL SUMMER COLOR 2022

## Summer Breeze

### The Pleasures of Summer - Caressing all the Senses

Summer is considered to be the season for enjoying life. It is the time to recharge the batteries and soak up the light, to relax during long summer evenings brightened by the last sunbeams, to feel alive in invigorating sea breezes and refresh yourself with cool thirst-quenchers.

Discover Summer Breeze, our seasonal color for summer 2022. This light, generous color blends the cool flavor of fruity iced tea with the allure of gold.

This tone is joyful and uplifting. It is an antidote to difficult times, symbolizing the warmth of the sun and radiating health, fitness, and well-being.

### Catch the Sun

When summer is around the corner, we only have one aim: to make ourselves comfortable and enjoy the sun and nature.

Summer Breeze gives tanned complexions a longer lasting, seductive glow. Whether on the skin, cheeks, lips or even fingernails, its golden radiance will attract the eye.

The coarse particle size of this golden pearlescent pigment contributes significantly to its dazzling sunny shine.

### A Touch of Gold - Sunny Golden Reflections

The secret behind Summer Breeze is our CosPearl Sparkle Gold pigment, based on natural mica. It is characterized by a captivating, luminous, radiant golden glitter which enhances natural beauty but also serves to create dramatic highlights in color cosmetics and personal care products.

This year, metallic tones are once again in vogue. They are easy to integrate into daily makeup and are absolutely on trend. In combination with simple nude tones, they truly come into their own.
